CAR CLUB OF WA*

**NEWSLETTER**  
AUTUMN 2010 EDITION

**BROOKTON  
2010**

PO BOX 2159 SEVILLE GROVE 6112

## *PRESIDENTS REPORT*

Welcome members to the first edition of 2010 and the third in the new format. Summer has left us and Autumn car shows are now upon us.

March is always a busy time for the EH Holden Car Club WA with Whiteman Park, Brookton OTMS leading into Waroona in April.

I was extremely pleased with the turnout at Whiteman Park and the location. This year we met before heading into the park, to allow us to arrange the vehicles in a display. The thought was there but unfortunately the execution was lacking, we will get it right if we keep trying. This year the club put on a cooked breakfast and many thanks to those that helped out. Many hands make light work.

Waroona was a great turn out with 18 cars and many members making the effort to visit the display. Apart from the weather, the best part was having a full complement of body styles on display, yes sedans, wagons, utes and a panel van. I'm not sure which state government to thank, but the new freeway extension makes the trip south a quick and effortless journey.

My mail box has been very busy during the first quarter with many members and non members requesting information on a range of things, from 'trusted' mechanical repairers, panel beaters, spray painters to parts.

The club has been acquiring some hard to get parts over the past few months and once a full inventory has been done we will offer them for sale to club members only.

By now you would have received an invoice for your membership; your prompt payment is appreciated. Please take note of the alternate PO Box at the top if paying by cheque. Direct deposit is preferred option.

Heritage day will soon be upon us and this is one event that we need to get out and support as both the Federal and State Governments are keen to see the back of classic cars. So let's get out there.

This year we will be doing a run up to Guilderton, then across to Gin Gin for lunch then home via Toodyay. Check the calendar page for meeting place and time.

For those attending the ASR 2011 there is now just under 12 months to go. So I trust your plans are taking shape. I am working on getting a group rate with CEVA for transportation to and from Melbourne.

Finally I trust that none of you suffered too much damage to home, car or property when the hail storm hit?

Until next time,  
Madam Prez

The club has finally achieved the goal of a new club banner from Rare Spares in Osborne Park. Thank you to all the club members who helped and supported a good club sponsor.

Below is Vera receiving the banner for Mike Robinson.

## *EDITORIAL*

Welcome to the Autumn edition. The run calendar has been busy since the last edition, we have had Whiteman Park, Brookton and Waroona. All the events were well attended, so keep up the attendance to future events.

There are still a few events before winter sets in, so check the calendar of events and do not forget the club AGM (June 27th), it is the best chance for you to have a say in what happens during the coming year and the direction the club will take into the future.

This issue we have a run down on Ken Golding's Premier wagon, which has gone to a new home after a recently completed rebuild.

Also a pictorial report of the recent events the club has participated in.

## **New Parts**

A company in Queensland, Harrisons Early Holden and Ford Parts, is in the process of tooling up to create various parts for the EH.

The list will include panels such as guards, bonnet and front stone tray, pre orders are being taken for these and many other parts.

If you are interested in more details you can contact them via email - [harrisonsearlyspares@hotmail.com](mailto:harrisonsearlyspares@hotmail.com)  
phone 07 5549 0351 fax 07 5549 0250

## **Club Displays**

By all accounts the club runs to Brookton, Whiteman Park and Waroona were well attended and a strong presance by club members.

There is a pictorial record of the club displays at these events, thanks to John & Vera Nolan for the photos.

# *WHATS ON*
